

Code Review Group – An Introduction

Ekaterina Ilin

University of Potsdam
Institute of Physics and Astronomy

Why review code?

...pythoning here.

Why review code?

...pythoning here.

Afraid/Ashamed of sharing your code? No-one to get help from?

Why review code?

...pythoning here.

Afraid/Ashamed of sharing your code? No-one to get help from?

Sad truth: Young scientists are not taught programming properly.

Why review code?

...pythoning here.

Afraid/Ashamed of sharing your code? No-one to get help from?

Sad truth: Young scientists are not taught programming properly.

Good news: Learn from each other!

What are we doing here?

Meet once every other week for approx. 1h.

What are we doing here?

Meet once every other week for approx. 1h.

One contributor + one chair.

What are we doing here?

Meet once every other week for approx. 1h.

One contributor + one chair.

Go through a piece of code the contributor wants to present to the group and discuss, work our way together through the code *line by line*, *ask questions* on the go (all levels!).

Is Code Review something for me?

You benefit from:

Is Code Review something for me?

You benefit from:

- seeing other people's programming style
- getting to know new techniques and packages
- getting used to reading other people's code and not only your own
- ...
